Philomath, OR 97370

Accommodations will be provided to persons with disabilities. To request an accommodation, contact us in advance of the meeting (see contact info below).

*Los documentos del proyecto pueden ser traducidos al español bajo petición.*

### What is the Transportation System Plan?

The Transportation System Plan (TSP) is a long-range document that guides the expansion and operation of our transportation network for all modes of travel over the next 20 years. The City's current TSP was adopted in 1999 and is currently being updated to reflect the latest community vision, infrastructure systems, and growth projections.

The project team has worked with the TSP Citizen Advisory Committee to develop recommended transportation system improvements. These include new roadways to support future development, highway crossing improvements for pedestrians, a network of trails to make walking and biking more comfortable, strategies to help support and expand transit service, and much more. Funding for construction of future projects will be limited.

### Get involved, tell us what you think

You are invited to come to this open house, discuss the recommendations with the project team, and tell us which projects should be the highest priorities. The project team will consider public input when developing the draft TSP update later this summer.

**If you can't make it in person, you can view all open house materials online from June 15th through June 23rd at [philomathtsp.org](http://philomathtsp.org), and provide comments through the website.**

**For more information or to request special accommodations, contact:**
